A Bike Built for Two

A young lady by the name of Mrs. Williamson was caught riding a bike built for two, on the side walk Tuesday evening. She was let go on suspended sentence. Others take warning.

J. D. Henderson Heads Tennis Club

A meeting of the tennis club was held Friday April 15, when the following officers were elected:
 President—J. D. Henderson
 Secretary—Geo. Orr
 Ground Committee—Rev. P. Dawson

Draw Committee—C. Starr
 A box of \$1 was set out and a resolution passed that the fee must be paid before anyone would be allowed to play.
 An active tennis year is eagerly looked forward to, as the club expect to visit many outside towns, including High River, Nanton and Vulcan.

Following are the 10 commandments of the tennis sport:
 1—Keep your eye on the ball.
 2—Make all shots with your body sideways to the net.
 3—Always have your weight going into the shot.
 4—Use a racket that is well-strung and not too heavy.
 5—Always dress specially for tennis and be sure to shower and change after playing.
 6—Remember, no match is lost until the last point is played.
 7—Never change the style of a winning game.
 8—Always take chances when looking for you have everything to gain and nothing to lose.
 9—Don't worry over defeat, or grieve over victory.
 10—Play the game as much as possible, and play it for the fun of the game.

Battle of Music Coming Again

The battle of music on Wednesday night, in spite of the stormy weather, was a night of real enjoyment for the few couples who were able to attend. The music by both orchestras was highly enjoyed by all, and it would be pretty hard for anyone to judge which to call the best. Owing to the stormy night the attendance was small, but both orchestras expressed their willingness to come again, so watch for announcement of date for the repeat of this battle.

Large Crowd At Party

One of the largest parties given this season claimed Miss Cameron, Miss McFall and Miss Clarkson as hostesses. Eight tables of bridge and one table of crokinole were in play. The honors were shared by Mrs. Deane, first, and Mrs. Bain, consolation. Dainty refreshments were served. Out of town guests were Mrs. Frieson, Vulcan and Miss Brown, Gleichen.

Mr. and Mrs. J. N. Beaubier, Mrs. Stephenson, Mrs. McLean and Mrs. Bell were among those who attended the funeral services of the late Mrs. May Gill Beaubier, who passed away on Wednesday night at her home. The O. E. S. service was held at the grave.

Local & General

Dr. and Mrs. Freeze motored to Calgary Wednesday evening. When not feeling well try Bread made in Champion. There is none better—Home Bakery.

The ladies Aid will meet on Thursday, April 28th, at the parsonage.

Mr. and Mrs. Frieson visited friends in town on Saturday. Miss Brown of Gleichen is visiting her sister Mrs. Fred Watts.

The best bread you can buy. It will keep its moisture longer than any other—Home Bakery.

Mrs. J. Buchanan and infant son of Stirling are guests at the home of Mr. and Mrs. Walter Harris.

Mrs. Chappel of Calgary is staying at the home of her parents Mr. and Mrs. James Ellis. We never close the bakery but give service as well as quality—Home Bakery.

Silent Biddle failed to deliver his address "Does Crime Pay" in Champion on Friday evening. A large crowd had gathered to hear him.

The Russell and McLeod road outfit passed through Champion Tuesday on their way to Okotoks to finish the stretch of road between that city and Midnapore.

Mrs. R. D. Farries returned to Champion Saturday. She was accompanied by her parents Mr. and Mrs. Johnson of Trochu.

Real French Bread made in Champion. Let Frenchie do your bread-baking. The quality and price is always right.

Champion golf fans will be interested in the Bobby Jones series of golf instruction movies entitled "How I play golf", now playing at the local theatre.

Sickness, mostly the common flu cut deeply into the attendance record at the school this week, when the records showed a considerably reduced enrollment.

Don't forget our whole wheat bread—is it all whole wheat—Home Bakery.

Mr. and Mrs. J. Lobban of Lethbridge are guests at the home of Mr. and Mrs. F. Wise.

Mr. and Mrs. A. M. Watt were Lethbridge visitors Tuesday.

Mrs. E. Camulini wishes to thank the Catholic Women's League for the beautiful plant sent during her recent illness.

Nels and Ole Running left for the Peace River country on Monday April 11. The boys are motoring and are on a land seeking tour.

Best Bread—flavor is as good as any and better than many—Home Bakery.

A mother's Day tea and bake sale will be held Saturday May 7th under the auspices of the wives of the board of managers of the United church, the proceeds to go towards the indebtedness on the hymn books.

Sacrament of Baptism will be observed on Mother's Day May 8th. Will parents who desire their children to be baptized kindly communicate with the pastor.

Mrs. E. Freeze's name was omitted from the prize winners at Mrs. McLean's bridge party Monday April 11. Mrs. Freeze was second highest.

Miss Aileen McCullough obtained honor standing in the recent grade XII Easter exams at Western Canada high school in Calgary.

NOTES AND COMMENT.

After a decade of deflation in which
 farm losses have run into hundreds of
 thousands, things are beginning to
 look a little better here and there for
 the agriculturist. Reports are coming
 from many a farm in which are re-
 lated the success of experiments by
 farmers who formerly suffered from
 the one crop curse but in late years
 have been going in for a diversification
 of products that has every prospect of
 turning the tide in their favor.

After all, the cautious policy of the
 League of Nations has borne fruit.
 Critics who spoke of the impotency of
 the league and jeered at its inaction,
 must admit that had it not been for
 the existence of that body, very
 serious international complications
 might have arisen.

No one can say what would have
 been the result of a vigorous assertion
 of the powers conferred by the coven-
 ant or the adoption of the coercive
 expedients proposed by the impatient
 councilors. Moderation and the
 force of world opinion have had their
 effect. Instead of being discredited,
 the league is vindicated as an agency
 of international cooperation against
 a common menace, when emergencies
 arise.

Automobile drivers who feel that
 the speed laws are too restrictive may
 find some cause in the announcement
 of an early-day car that was guaran-
 teed to dazzle motorists of that period.
 This announcement was as follows:
 "The machines have three speeds—
 slow, medium and fast. Fast speed
 usually reaches ten miles per hour.
 On level roads, with no bumps, they
 may even increase to twelve miles per
 hour. But we do not advise this ex-
 tra-slight speed since it places too
 much upon the cleverness
 of the driver."

There is no doubt that a twelve-mile
 speed limit would avert many acci-
 dents, but if drivers are cautious, alert
 and courteous it is still possible to
 avert many crashes at present-day
 speed.

The time is fast drawing near when
 the suburban householder will find
 himself mowing, in the peace of the
 evening, about his back yard garden.

The habit of keeping a small garden
 sometimes rises to the level of an art
 and sometimes sinks to the level of a
 vice; and every town resident is
 touched with it some time in his life.
 All of this never does anyone any
 harm, and occasionally the vegetables
 that are raised in these back yard
 gardens are quite edible—or if it's an-
 other kind of garden, the flowers that
 grow can actually be placed, put in a
 vase and used to decorate a living
 room table. One wonders, though
 why it is that the annual gardening
 epidemic has never drawn the atten-
 tion of learned students.

In the first place, keeping a back
 yard garden is the hallmark of re-
 spectability, of placid and trustworthy
 domesticity. No man who puts
 about a nine-by-eleven plot of dirt in
 the evenings with a stained trowel
 and an aching pair of knees, would
 ever abscond with another's cash, or
 with another's wife. To keep a gar-
 den on this modest scale is to assure
 your neighbors that you are a man
 whom the bitter winds of temptation
 do not ruffle. You are not, in a word,
 slightly. There must be solid stuff in
 you.

But that is not the whole of it.
 Keeping a garden is not simply an
 attempt to get fresh vegetables or
 flowers. It is a sort of mystic ritual,
 a method by which the victims of a
 hard mechanical age can into touch
 with the pungent earth once more.

How strange that cars leave the
 road only where there's a steep em-
 bankment. But then, only a few
 people quit the straight and narrow
 path when they're on the level.

Says Garnet Wheat Should Be Graded Separately In Order To Command A Better Price

If Garnet wheat were graded separately, thus showing millers to make their own blends, it would have a better chance of commanding a premium in the market than it has at present. This variety is at the moment graded as No. 2 Northern.

Such was the opinion of E. B. Ramsay, chief of the board of grain commissioners, expressed to the House of Commons Committee on Agriculture.

Last October the western grain standards board passed a resolution recommending that separate grades be created for Garnet. Parliament, however, requested that this action be deferred for the present year, so that the grades will not be disturbed for another 12 months at least.

The chief antagonism against Garnet came from the Canadian millers. Mr. Ramsay told the committee. Their prejudice was due to the yellowing of the flour and not to any inferiority in quality. Foreign millers had found it satisfactory. Also, Canadian millers did not wish to buy a No. 2 Northern, in which grade Garnet had been put. Asked by W. R. Motherwell (Liberal, Melville), if the real reason for this antagonism might not be that the Canadian millers did not want to incur the expense that might be entailed in adjusting their machinery to grind Garnet, Mr. Ramsay believed this to be a factor.

Of 276,000,000 bushels of wheat produced last year, Garnet totaled 45,000,000, thus indicating the popularity of this variety in the west. Mr. Ramsay urged that blending Garnet with other varieties should be scientific and not haphazard. The high quality of Canadian wheat must be maintained, for the Canadian inspection certificate was the only one accepted in England at its face value.

He thought that if foreign importers wanted Garnet, they should know they were getting that variety. At present, they did not know what they were getting inasmuch as shipments were made only on the basis of No. 2 Northern. These might contain 10 per cent. Garnet, or 80 per cent.

New Gold Mines

Rich Areas Are Reported In Northern Manitoba

New gold mines will be discovered and developed in Manitoba, predicted J. F. Wright, of the Geological Survey, in a paper delivered before the annual convention of the Canadian Institute of Mining and Metallurgy in session in Montreal.

Dr. Wright, who has developed a great deal of his time in recent years to examination of mineral areas in Manitoba, referred particularly to the areas about Island Falls and Oxford Lakes as new ground offering interesting possibilities to the prospector. These areas, formerly inaccessible, can now be reached by airplane, he stated, and have already yielded some promising prospects which he described in some detail.

Practical suggestions and instruction to the prospector were contained in Dr. Wright's paper calculated to direct his efforts into the most productive channels.

Present evidence, concluded Dr. Wright, points towards interesting possibilities in the neighborhood of the three lakes mentioned. They are located about 150 miles east of the northern end of Lake Winnipeg.

Will Fight "Flying Scot"

Those who do not expect to travel between London and Edinburgh next May may see in Chicago the "Flying Scot," fastest train in the world. The "Flying Scot" will be transported to the United States in 1923 with its full crew of British trainmen, complete with coaches, sleeping cars, baggage cars and motive power, to be shown at Chicago's Century of Progress Exposition.

"Can you lend me five marks quickly?" "No, nor slowly either"—Jugend, Munich.

W. N. U. 1928

Turner Valley Oil Field

Sufficient Reserve To Supply Calgary With Gas For Next 20 Years

If the wells of the Turner Valley oil field, about 45 miles from Calgary, were properly and efficiently operated, their output would be sufficient to serve the City of Calgary with illuminating and heating gas for about 20 years.

This statement was given by the House of Commons committee of banking and commerce investigating the alleged high price of gasoline in Canada by Oliver Hopkins, head of the geological department of the Imperial Oil Company. He had been called, at the suggestion of Dr. G. D. Stanley (Cons., Calgary East), to describe the Turner Valley situation and its relative position to the gasoline industry of Canada.

Conservation passed recently by the Alberta Government with view to preserving the output of the wells, had materially reduced the production of crude naptha, which was a constituent of gasoline. Consequently, the Imperial Oil Company had reduced its production of crude naptha from 4,800 barrels daily as in 1920, to about 2,400 barrels daily at the present time.

Because of an increase of horse-drawn traffic there was a curtailed market for gasoline and crude naptha throughout Alberta, and accordingly the Imperial Oil Company had not continued to produce at capacity. About four-fifths of the crude naptha was refined by three refineries in Calgary, and the other fifth was sold direct to farmers, who used it in their tractors at a cost of about 10 cents a gallon.

There were about 96 producing wells, of which the Imperial Oil Company owned or controlled 50. In 1920 the production of the whole field was 1,264,584 barrels of crude naptha, of which the Imperial Oil proportion was 594,531, and in 1921 the total production was 1,572,623, of which the Imperial Oil proportion was 611,030.

In August, 1921, it cost the Imperial Oil Company 8.91 cents for a gallon of crude naptha from the field to Calgary. It cost 8.23 cents a barrel to transport from the field to Calgary. Only a small amount of crude oil was produced in the Valley, approximately 50 barrels of crude oil at a time. "As I understand it, it is clear that for a Regina refinery to purchase crude oil from the mid-continent field around Oklahoma than from Calgary, due to high freight rates," declared Mr. Hopkins.

The Wheat Bonus

Over \$11,000,000 Distributed At A Cost Of \$107,000

The cost of administering the wheat bonus of five cents a bushel last year was \$107,000. If H. St. George, Minister of Trade and Commerce, told the House of Commons. In connection with the House's consideration of an estimate of \$24,000,000 for the Canada Grain Act. The appropriation represented a reduction of \$331,000 from the sum voted last year.

More than 2,000,000 chokes had to be mailed out to the farmers receiving the bounty, he said. The bonus itself was more than \$11,000,000 last year.

The bonus was administered by the Board of Grain Commissioners, and the \$107,000, taken up with administration costs, represented one per cent of the moneys applied.

Turn Of The Tide

Immigration Between British Isles and Dominions Reversed Last Year

The tide of immigration between the British Isles and the Dominions was reversed last year, for the first time in history.

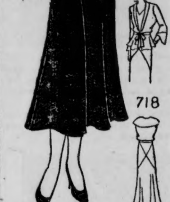

United States Trade Commissioner Rogers H. Townsend at London, England, reported to the Commerce Department 53,000 colonial citizens last year entered the United Kingdom from other parts of the Empire to remain, while 27,000 British citizens emigrated to the Dominions.

Stranger on board Atlantic liner entering New York Harbor—"Say, George, what's that tremendous statue over there?"

George—"Oh, that's a monument erected to the memory of Uncle Sam's divorced wife."

Canada's total catch of fish last year weighed 889,000,000 pounds.

Winnipeg Newspaper Union

FINANCES OF CANADA

Government Ended Year With Cash Balance Of \$23,000,000

Ordinary expenditures in 1921-22 were \$19,000,000 less than estimated, totalling \$278,700,000.

Ordinary revenues, greatly reduced by reason of lower yield from taxation, were \$227,700,000.

Deficit on ordinary account, 1921-22, \$51,000,000.

Expenditures not provided from income—Special (net), including unemployment and farm relief, \$18,000,000; capital, \$16,000,000; loans (non-revenue), \$5,300,000, resulting in increase of debt, \$119,500,000.

Expenditures on unemployment and farm relief, 1921-22, \$38,200,000; interest on public debt, \$11,000,000.

Government ended year with cash balance of \$23,000,000.

Estimated expenditures, ordinary and capital, in 1922-23, \$278,300,000, a reduction from the previous year of \$25,400,000 after absorbing an increase of \$19,000,000 in interest on public debt.

Controllable expenditures of the government on the usual services have under the estimates for 1922-23 been reduced \$35,500,000, or 20 per cent from the previous year.

Revenues under existing taxation are estimated at \$239,000,000, and ordinary expenditures, \$20,900,000.

New taxation will, it is estimated, yield \$53,000,000, balancing current account and leaving a surplus of \$4,300,000.

Provision is not fully made from revenues for capital expenditures or for unemployment relief or railway deficit, although any improvement in income would be immediately reflected in increased yield from taxation and would correspondingly improve budget position on all counts.

May Retire From Public Life

Stated That Lloyd George Will Devote Himself To Writing and Farming

David Lloyd George, one of Britain's greatest political figures, was reported recently to have decided on his virtual retirement from the House of Commons. Only events of outstanding importance, and those close to him, would bring the Welsh Liberal back to the scene of his past triumphs. There was nothing on the political horizon now, it was added, that could be considered in that category.

Lloyd George, who, in his galvanic manner the Irish "will to win," whose oratory awayed the benches of Commons as had that of few men, will devote himself in the future to writing and farming, his friends said.

While continuing to feel that where Lloyd George is concerned the unexpected might always happen, commentators recently have pointed out that in the strict logic of events it was hard to see just what his place could be in the present political scene.

Heads Labor Conference

Senator Clifton Robertson Presides At Meeting In Geneva

Elected president of the International Labor Conference, Senator Clifton Robertson, former Canadian Minister of Labor, said he regarded the action as a tribute to the Dominion in view of its constant loyalty to the international labor organization, built up under the auspices of the League of Nations, and Canada's constant adhesion to its principles.

It was also a tribute to the countries of the new world, particularly those of North America, Senator Robertson told the delegates, who had assembled from 50 nations.

The conference will discuss old age pensions, abolition of the fee-charging employment agencies and the admission of children to employment in non-industrial occupations.

Wheat Bonus

Payment Made On 109,660,968 Bushels Of Wheat

Up to December 31 last year a total of \$8,482,348 had been distributed to the farmers of western Canada under the provisions of the five-cent-a-bushel wheat bonus, according to the annual report of the Board of Grain Commissioners, tabled in the House of Commons. This amount represented payment on 109,660,968 bushels of wheat.

Approximately 2,000,000 bonus certificates were received, checked, and payment made thereon. The commissioners had to increase their staff of clerks and stenographers from 25 to 82 during the heavy shipping season.

Professor: "The difference between a poor man and a millionaire—" Student: "Yes, I know all about that. One worries over his next meal and the other over his last!"

Landlady: "Oh Mr. Newboard has found something funny to complain about this morning?" Maid: "No man, m'm, it's the eggs."

"Your pulse is perfectly regular." "Nonsense. You are holding my wrist watch."—Die Muskete, Vienna.

No Other Boundary In World Of Such Length As That Which Divides Canada and United States

Isolated Salt

Research Council Advocates Iodine Survey Of Food and Water Supply

In the opinion of the Associate Committee on Iodized Salt, an advisory body of Canadian experts created by the National Research Council at the suggestion of the Canadian Medical Association and the Canadian Chemical Association, the widespread lack of endemic preparations containing thyroid is inadvisable from the standpoint of public health, except under a doctor's prescription, and the sale of these preparations for the treatment of goitre and obesity should not be permitted.

The method of administering iodine in table salt is satisfactory but the proportion of iodine now used in iodized salt in Canada, one part in 10,000, is unnecessarily high. One part of sodium or potassium iodide in 100,000 would be sufficient, and one part in 100,000 would be satisfactory as a maximum.

The committee suggests that if an iodine survey of food and water supplies in Canada is to be carried out, it should be undertaken by a national body such as the National Research Council. Consultation with the manufacturers of iodized salt by the National Research Council and the partly for convenience, the international boundary has been divided into eight sections. These sections are: (1) The Atlantic Ocean, to the source of the St. Croix River; (2) the source of the St. Croix River to the St. Lawrence River; (3) the St. Lawrence River and Great Lakes; (4) Lake Superior to Lake of the Woods; (5) the Gulf of Mexico from Lake of the Woods to the Gulf of Georgia; (6) the Gulf of Georgia and Straits of Haro and Juan de Fuca to the Pacific Ocean; (7) Dixon Entrance to Mount St. Elias; (8) Mount St. Elias to the Arctic Ocean.

The boundary between Canada and the United States comes under the jurisdiction and administration of the International Boundary Commission. This body is composed of Canadian and American Commissioners, one representing Canada and one the United States. They are guided by five international treaties.

There is no other boundary in the world of such length on which no gun or armament is to be found.

Alberta's Income Tax

Province Expects To Derive Over \$100 Million In Revenue

Even office boys and clerks earning \$15 a week will contribute to the treasury of the Alberta Government through the income tax which is expected to net \$1,374,000 in revenue. Returns on 1921 incomes must be made by May.

Anyone earning \$15 a week who is unmarried will pay a \$3 fine plus a 30-cent tax. Married persons with no dependents will pay the \$3 base tax and 60 cents income tax on income in excess of \$20 a week.

Exemptions for single persons are \$750 and for married persons \$1,500. Only single persons earning \$40 a week or more will be liable under both taxes, the amount of the taxes on that salary being \$14 to the province and \$4 to the Dominion.

We have often wondered why one never hears the expression "a self-made woman." A woman writer in a discount paper offers this explanation: "Most women are so busy helping make some of these 'self-made' men that they have no time for themselves."

Almost half the corrosion waste of the entire world occurs in the United States.

Payment Made On 109,660,968 Bushels Of Wheat

Up to December 31 last year a total of \$8,482,348 had been distributed to the farmers of western Canada under the provisions of the five-cent-a-bushel wheat bonus, according to the annual report of the Board of Grain Commissioners, tabled in the House of Commons. This amount represented payment on 109,660,968 bushels of wheat.

Approximately 2,000,000 bonus certificates were received, checked, and payment made thereon. The commissioners had to increase their staff of clerks and stenographers from 25 to 82 during the heavy shipping season.

Professor: "The difference between a poor man and a millionaire—" Student: "Yes, I know all about that. One worries over his next meal and the other over his last!"

Landlady: "Oh Mr. Newboard has found something funny to complain about this morning?" Maid: "No man, m'm, it's the eggs."

"Your pulse is perfectly regular." "Nonsense. You are holding my wrist watch."—Die Muskete, Vienna.

Many references at gatherings in Canada and the United States are made to the "4,000 miles of undefended boundary" between the two countries.

As a matter of fact the boundary is 5,600 miles in length, of which 3,100 miles are land boundary and 2,400 miles are water boundary. The land boundary is marked by 8,483 monuments and a vista cut through the woods in all forest covered areas; the water boundary is identified by 2,500 reference marks.

The monuments used in the several sections of the boundary are of several types and of different materials. In the mountains of Alaska and British Columbia Indian monuments of stone and concrete are used. Along the waterways the reference monuments are chiefly of concrete, and along the narrower waterways small solid aluminum bronze marks serve to mark the international boundary. Where necessary, monuments of a special type are used, for example, the Gulf of Georgia, the first course of the water boundary, which is eleven miles in length, is marked by steel towers carrying lights. The offshore tower in this case is sixty feet high.

Partly due to physical characteristics, partly for historical reasons, and partly for convenience, the international boundary has been divided into eight sections. These sections are: (1) The Atlantic Ocean, to the source of the St. Croix River; (2) the source of the St. Croix River to the St. Lawrence River; (3) the St. Lawrence River and Great Lakes; (4) Lake Superior to Lake of the Woods; (5) the Gulf of Mexico from Lake of the Woods to the Gulf of Georgia; (6) the Gulf of Georgia and Straits of Haro and Juan de Fuca to the Pacific Ocean; (7) Dixon Entrance to Mount St. Elias; (8) Mount St. Elias to the Arctic Ocean.

The boundary between Canada and the United States comes under the jurisdiction and administration of the International Boundary Commission. THE HOUSE OF DREAMS-COME-TRUE

— BY —
MARGARET FIEDLER

Author of "The Beautiful Girl," "The Hermit of Par Rock," "Hodder & Stoughton, Ltd., London."

CHAPTER XVIII.—Continued

For a moment they faced each other, his eyes, stormy as her own, dark with anger. His hands clenched themselves.

"If I could," he said hoarsely, "I would 'make' it my business."

He wheeled round and left the room without another word. Jean stood staring dazedly at the blank panels of the door which had closed behind him. She wanted to laugh... or to cry. To laugh, because with every sudden word he revealed the thing he was so sedulously intent on keeping from her. To cry, because he had taken her pretended indifference at its face value, and so another film of misunderstanding had risen to thicken the veil between them. The veil which he would not, and she, being a woman, could not, draw aside.

CHAPTER XIX.—

The Spider

Probably masculine coarseness and the feminine faculty for dissimulation are together responsible for more than half the broken hearts with

"I haven't been so happy for years."

"I've just thrown out all my dust cloths"

—because I've found how to do the work better, easier and quicker.

"I use Appleford Wonder Paper now. You buy it in a neat package that tucks away neatly in a table drawer. Twenty-five large sheets, for a quarter. When you use it, you simply crumple a sheet into a soft wad and go over wherever need attention."

"I've never seen anything like Wonder Paper. It really dries, cleans and polishes at the same time. It takes up dirt like magic, and so easily. And you can use both sides."

"What I used to loathe about dusting was the bother of keeping the dusts clean. I always used odd ends of old shirts and the like—and it seemed to me I was eternally washing them. It worried me just to throw these into a bag or cupboard. They seemed so unsanitary."

"The beauty of Wonder Paper is that you throw it away when you're through with it."

"I can promise that you'll like Wonder Paper. It gives you time for things very much more attractive than dusting."

Special Offer

WONDER PAPER made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box. Next grocery, hardware and department stores have Appleford Wonder Paper in stock. If you don't see it, ask the coupon below and we'll give you a booklet entitled "Lettovers," containing one hundred recipes, as a bonus for your trouble.

which the highways of life are littered.

The Recalcitrant Parent, the Other Woman—be she never so guileful—or the Other Man, as the case may be, are none of them so potent a menace to the ultimate happy issue of events as the mountain of small misunderstandings which a man and a maid in love are capable of piling up for themselves.

The man is prone to see only that which the woman intends he shall — and no self-respecting feminine thing is going to unveil the mysteries of her heart until she is very definitely assured that that is achieving for her to do.

So she dissimulates with a few cold thousand years or so of tradition have taught her and pretends that the Only Man in the World means rather less to her than her second-best shoe buckles. With the result that he probably goes silently and sadly away, convinced that he hasn't an outside chance, while all the time she is simply quivering to pour out at his feet the whole treasure of her love.

In this respect Blaise and Jean blundered as egregiously as any other love-befogged pair.

Following upon their quarrel over the matter of Jean's attitude towards Geoffrey Burke, Tormarin retreated once again into those fastnesses of aloof reserve which seemed to deny the whole memory of that "magic moment" at Montevan. And Jean, at a loss as to what to do, turned her thoughts to the matter of her own future, finding a certain reckless enjoyment in the flavour of excitement lent her by the fact that Burke was in deadly earnest.

Playing with an "unexploded bomb" at least sufficient to take her thoughts off other matters, and enabled her momentarily to forget everything for which forgetting seemed the only possible and sensible prescription.

But you can't forget things by yourself. Solitude is memory's closest friend. So Jean, heedless of consequences, encouraged Burke to help her.

Lady Anne sometimes sighed a little, as she watched the two go off together for a long morning on the river, or down to the tennis-court, accompanied, on occasion, by Claire Lattimore and Nick to make up the set.

But you can't forget things by yourself. Solitude is memory's closest friend. So Jean, heedless of consequences, encouraged Burke to help her.

self and the woman he loved. While Jean grew restless and afraid, and flung herself into every kind of amusement that offered, wearing a little line under the combined mental and physical strain.

Claire, perceiving the nervous tension at which the girl was living, was wistfully troubled on her friend's behalf, and comforted her anxious bewilderment to Nick.

"I think Blaise must be crazy," she declared one day. "I'm perfectly convinced that he's in love with Jean, and yet he appears prepared to stand by while Geoffrey Burke completely monopolizes her."

Nick nodded.

"Yes, I own I can't understand the fellow. He'll wake up one day to find that she's Burke's wife."

"Oh, I hope not!" cried Claire hastily.

They were pacing up and down one of the gravelled alleys that intersected the famous rhododendron shrubbery at Charnwood, and as she spoke, Claire cast a half-frightened glance in the direction of the house. She knew that Sir Adrian was closeted with his lawyer, and that he was, therefore, not in the least likely to emerge from the obscurity of his study for some time to come. As long as he was anywhere on the place, she was totally unable to rid herself of the hateful consciousness of his presence.

He reminded her of some horrible and loathsome species of spider, at times remote and motionless in the centre of his web, in which, body and soul, she had been inextricably caught—but always liable to wake into sudden activity, and then plunge mercilessly.

"Oh, I hope not!" she repeated, shivering a little. "If she only knew what marriage to the wrong man means!"

"—And I'm certain Geoffrey is the wrong man. Why on earth does Blaise behave like this?"—impudently. "Anyone might think she herself might think—he didn't care! And I'm positive he does."

"If he does, he's a fool. Good Lord!"—moodily kicking a pebble out of his path—"Imagine any sane man, with a clear head before him, 'not taking it'! He swung round towards her suddenly. "Claire, if there were only a clear road for us! If only I could take you away from all this!"—his place embracing the grey old house, so beautiful and yet so small a prison, which just showed above the tops of the tall-growing rhododendrons.

"Oh, hush! hush!"

Claire glanced round her frightfully, as though the very leaves and blossoms had ears to hear and tongues to report.

"One never knows!" she whispered the words barely above her breath—"where he is. He might easily be hidden in one of the alleys that run parallel with this."

(To Be Continued.)

Profitable Reading

Imagination Exerts Largely Into What We Learn From Books.

As there are persons who go to walk through life with their eyes open, seeing nothing, so there are others who read through books, and perhaps even read themselves, without carrying away any living pictures of significant story which might arouse the fancy in a hour of leisure, or grid them into a beam in a moment of difficulty. Ask yourself, therefore, always when you have read a chapter of any notable book, not what you saw printed on a grey page, but what you see pictured in the glowing gallery of your imagination.

Count yourself not to know a fact when you know that it took place, but then only when you see it as it did take place.

More than 50 per cent. of the farms in the United States are free of mortgage debt.

Many mothers can testify to the virtue of Mother Granger's Worm Expeller, because they know from experience how useful it is.

The discovery that the earth seems to act as a great magnet was made in the seventeenth century.

The smut habit is being revived among women of Britain.

Cross Baby

"Baby was awfully fidgety" writes Mrs. H. Hamilton, N.B. "until I started giving BABY'S OWN TABLETS. Now he is the ideal baby. Let us be the ideal treatment for children's colds, fever, colic, and upset stomach. Harmless. See certificate on each box." 237

Dr. Williams' BABY'S OWN TABLETS

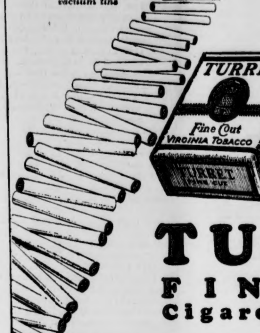

It does pay to "ROLL YOUR OWN"

From the standpoint of economy—each 20c. package of Turret Fine Cut contains the makings for at least 50 cigarettes—and Chantrel cigarette papers free.

From the standpoint of real smoking pleasure, there's nothing like rolling your own with the smooth, mellow, fragrant Virginia tobacco that you get in the Turret Fine Cut package.

It does pay to roll your own with Turret Fine Cut.

15¢ and 20¢ packages—also in 1/4 lb. vacuum line

FREE Chantrel cigarette papers with every package.

THE RHYMING OPTIMIST

By Aline Michaels

THE PEACE OF NIGHT

There is a wistful beauty in the night that frees the spirit from the hurts of day.

A tender loveliness in starry light.

From sorrow's hours dusk leads us to our fragile boats adrift on that dark sea.

Where the stardust is the tossing spray.

Night brings a whisper of eternity into the confines of our little lives.

And peace comes down to dwell with you and me.

No more at least the futile passion fight.

No more love sends us with departing flight.

No longer any hate or greed survives. Earth's little slay off when morning arrives.

And peace is ours throughout the quiet night.

Persian Balm—there is nothing like it for treating and preserving a lovely complexion. Cologne, perfume, and scents and dainties all roughness or chafe caused by winds or dusts. Delicately fragrant. It adds exquisite charm to the most finished appearance. Dainty women inevitably choose Persian Balm. A velvety smooth finish. It makes the skin resist in texture. Recommended also to soften and whiten the hands. Truly a perfume cloth requisite for every woman.

Tax On Telegrams

Also On Cables, Radio Messages and Long Distance Telephone Calls.

The Canadian taxpayer will once again be required to pay a tax on telegrams, cables, and radio messages, under the terms of the budget brought down by R. N. Rhodes, Minister of Finance. A new feature in the imposition of a tax on long distance telegrams by telephone. The tax is five cents.

The resolution providing for imposition of the tax reads as follows: "That on every cable and telegraph or radio message originating in Canada for which a charge of more than 15 cents is made, the sending press despatches, and on every long distance telephone call originating in Canada for which a charge of more than fifteen cents is made the sending company shall pay to the consolidated revenue fund a tax of five cents and may charge the same to the person paying the regular charges for such message."

A novel electric candle-lamp has been perfected which, when raised from a table on which it rests, is lighted. On being placed on the table again, it is extinguished.

Condemns the Tourmiquet

Lancet, British Medical Journal, Cails It "Disreputable Belch"

The tourmiquet, bound tightly around the arm or leg to stop bleeding, is no longer considered good practice in first-aid, it appears from an editorial note in "The Lancet," British medical journal. The danger of prolonged pressure with this instrument was emphasized and the tourmiquet itself was referred to as "a disreputable relic of the past whose only habitat should be the museum."

For seven years a Belgian physician, Dr. M. Stassen, has dispensed with the tourmiquet, and the first-aid equipments for which it has been responsible. "The Lancet" points out, Dr. Stassen thinks the tourmiquet is a frequent cause of shock and gangrene. By completely stopping the blood circulation in the injured limb, it promotes infection in the crushed and torn tissues. Its removal is followed by absorption of poisons capable of killing a patient already weakened by cold, shock and loss of blood.

Income Tax Collecting

\$744,000,000 Collected By Federal Government In 14 Years

In the 14 years the income tax has been in effect approximately \$744,000,000 has been collected by the Federal Government.

The collection of this sum has cost less than \$26,000,000.

These were points of interest in a recent broadcast by C. S. Walters, commissioner of income tax, Ottawa, on the Dominion Income Tax.

The average yearly income tax for the first 13 years was more than \$22,000,000, while the collection for the last fiscal year will total more than \$61,000,000.

Last year about 20 per cent. of the total revenue of Canada was raised by the income tax, Mr. Walters said.

Oldest Peer Dead

Lord North, the oldest peer in Great Britain, died recently at his home at Wroxton Abbey. He was 95 years old.

About one-third of the population in the United States are now of old type.

MILBURN'S NERVE PILLS

Price 60c a box

Sold at all drug and general stores, or mailed direct on receipt of price to The T. Millburn Co., Ltd., Toronto, Ont.

Little Helps For This Week

"For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind."—2 Timothy 1:7.

Lord and Father, grant and holy! Fearing naught we come to Thee; Fearing naught, though weak and low. By Thy holy bending o'er us, Teach us, Lord, the angel chorus, Thine art love and love alone.

—Frederic W. Farrar.

"Fear may create the enforced obedience of the slave, love only can win the devotion of the child, and that is why God hath not sent to us—who know the truth and whom the truth has made free—the spirit of fear and bondage, but of love, and of power, and of a sound mind. And this love is the sole basis of holiness.—Ibid.

Exempt From Sales Tax

Pastries Not Made From Bread Dough On Free List

By virtue of the budget, exemption from sales tax has been applied to cakes, pastries, pies and cookies, not made from bread dough, provided that the bakers of such commodities had not a sales volume exceeding \$5,000 in the last calendar year.

Instructions to collectors of excise have been issued to this effect by the Department of National Revenue.

Relief From Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when the soft and gentle cough relieves the tightened, choking air tubes? It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

Television Coming

Giuseppe Marconi, who announced that he had made successful tests of a new shortwave radio telephone, disclosed recently that he is turning his inventive genius to television. "I expect soon," he said in an interview, "to be able to see my family in New York while I speak with them by wireless telephone."

Sorry To See Night Coming She Could Not Sleep

Mrs. K. McElroy, Kirkfield, Ont., writes—"I was very nervous about the shortness of breath, and had smothering feelings, and was sorry to see night coming as I could not lie down or go to sleep."

I was advised to use Milburn's Heart and Nerve Pills. I took seven boxes and am now completely relieved. I sleep all night, and have gained in weight."

WILL REVEAL RELIEF PLANS IN NEAR FUTURE

Winnipeg, Man.—Legislation to be introduced shortly in the Dominion Parliament by Premier R. B. Bennett will reveal the system of unemployment relief to be used after May 15. W. H. Chubb, Minister of Public Works, stated in the Manitoba Legislature, Friday, that the Dominion-Provincial Conference on unemployment relief at Ottawa, Mr. Chubb said he was not at liberty to announce the decisions of the conference.

The back-to-the-land scheme endorsed by the Manitoba Government aroused interest at the conference, Mr. Chubb said. W. A. Gordon, Dominion Minister of Immigration, had already placed some persons with means on the land and had intimated legislation somewhat along the lines of the Manitoba scheme might be brought in to provide a place for persons without means on farms.

Premier Bennett had told the conference his government was studying the figures and would determine the feasibility of an unemployment insurance scheme. No Dominion legislation in this regard was to be expected by the end of the session, however, Mr. Chubb had learned.

A resolution asking the Dominion Parliament to enact legislation authorizing Manitoba to establish a provincial bank was passed by a vote of 26 to 10.

Vancouver Vessel For Ontario Ports

Inaugurates Freight Service From West Coast To Toronto and Hamilton

Montreal, Que.—Vancouver to Toronto and Hamilton by water is the service being inaugurated by the U.S. Rosebank of the Kingsley Navigation Company, Limited, Vancouver. The vessel is due here shortly after the opening of navigation on the St. Lawrence, after unloading part of her cargo here, will proceed to the Ontario ports.

From Toronto, Hamilton and Montreal will be taken on board for the return journey. The "Rosebank" was on one time the Canadian Overseer of the Canadian Government Merchant Marine Fleet. She left Vancouver on March 21 with a full load of timber and canned salmon.

Naturalization Papers Needed To Produce Citizenship

C.N.R. Workers At Winnipeg Required To Produce Citizenship Papers

Winnipeg, Manitoba.—Foreign-born workers in the Canadian National Railway shops at Port Rouge and Transcona are required to prove their citizenship. Their naturalization papers were inspected by a committee headed by A. E. Moore, Dominion chairman of the Canadian Legion, who said the investigation is the result of a new basis for the proposed bill of men by which all employees who cannot prove their Canadian citizenship will be dismissed regardless of seniority.

Mr. Moore, said the basis had been arranged at a conference he had a few days ago with Sir Henry Thornton, president of Canadian National Railway, and R. J. Manion, Minister of Railways.

Asking Preference On Wheat

Melbourne, Australia.—E. W. Hawker, Minister of Markets and Transport, told the Commonwealth legislature in the Australian delegation to the Ottawa Imperial Conference on wheat next July did not intend to encounter its case with requests for preferential markets for wheat and barley but would concentrate on obtaining concessions for meat and dairy produce.

Favors War Weapon Cut

Geneva, Switzerland.—Foreign Minister Dino Grandi of Italy told the World Disarmament Conference that he favored the United States proposal for abolition of tanks, heavy artillery and gas warfare. He added to the proposal to abolish battle ships, submarines and bombing aeroplanes.

Six Advisers For Delegation

London, Eng.—The London Times said six business advisers will be attached to the British delegation to open the Imperial Conference next July. Three will represent trade and industry, one agriculture, and two trade unions, the newspaper added.

W. N. U. 1938

Use More Foreign Wheat

Italy To Lighten Restrictions On Future Importations

Rome, Italy.—Restrictions on the use of foreign wheat again were lightened by government decree. Beginning April 26, millers of northern and central Italy will be allowed to use imported grain for 60 per cent of their flour, while millers of southern and insular Italy will be permitted to use 85 per cent.

The amount of foreign wheat which could be used in the mixing of flour formerly was 40 per cent, and 60 per cent, respectively, having been gradually raised from 20 per cent, in view of an insufficient production of domestic grain.

Ottawa, Ont.—Growth in Italian purchases of Canadian wheat is looked forward to here as a result of the increase in the proportion of foreign wheat allowed in the making of flour in Italy. The lightening of restrictions follows the trend of other years when, to encourage consumption of domestic wheat, restrictions are imposed early in the crop season and gradually relaxed as the domestic supply diminishes.

Many Countries Will Exhibit

Saskatchewan Farmers Urged To Take Interest In Grain Show

Regina, Sask.—J. A. Mooney and E. B. Cass, of this city, addressed a meeting of the Board of Trade at Yorkton in an endeavor to stimulate enthusiasm in the World's Grain Exhibition and Conference to be held in Regina in 1938.

Mr. Mooney told the gathering that 20 countries have already signified their intention of entering exhibits at the World's Grain Exhibition, and that before long he expected the number would be at least fifty.

"We have one of the best growing grain areas here," Mr. Mooney said, "and it will be our duty not only to put forth our best efforts to entice and encourage the farmers of the district to enter exhibits at the World's Grain Exhibition, but also to make the most of the exhibit in the World's Grain Exhibition."

Mr. Cass outlined ways and means of stimulating interest and enthusiasm among the residents of the small towns and villages and the farmers in the Yorkton district and stated that Saskatchewan should enter at least one exhibit in the World's Grain Exhibition.

Must Protect Bay Route

Many Misrepresentations Claimed In regard To Churchill Outlet

Ottawa, Ont.—The Hudson Bay route and the Port of Churchill are the butt of many misrepresentations in both English and Canadian newspapers, B. M. Bitt (Cons., Nelson), told the House of Commons. The member from Nelson charged that if the misrepresentations had their way they would make it impossible for business to flow over the Hudson Bay route.

Hudson Bay and Strait routes are not equipped with all necessary aids to navigation and ready for service. Parliament must see that nothing was done to jeopardize their future development.

With regard to the railway into Churchill, he said shippers were ready to offer of men by which all employees who cannot prove their Canadian citizenship will be dismissed regardless of seniority.

Benefit To Canada

Estimated \$250,776,000 Brought In By Tourists Last Year

Ottawa, Ont.—Total expenditures of tourists in Canada during 1931 are estimated by the Dominion Bureau of Statistics at \$250,776,000. This is a decrease of \$20,000,000 from the estimated expenditures of the previous year. Entering Canada via ocean freight, tourists spent \$120,000,000; from the United States by motor car, \$188,129,000; and from that country by rail, \$50,629,000.

As against this, Canadians touring abroad spent \$76,452,000 in other countries, a decrease of approximately \$25,000,000 from the figure in 1930.

Miners May Strike

Calgary, Alberta.—Alberta coal miners stand firmly against wage reductions, according to reports of the vote held by the Mine Workers' Union of Canada to accept the miners' stand in the event of pay cuts. It returns so far show a great majority in favor of a general strike if operators attempt salary reductions.

Gives Royal Assent

Winnipeg, Man.—Making his first appearance at the Manitoba legislature this session, Lieutenant-Governor J. D. McGreggor gave royal assent to six bills. His first act was to sign a bill after a leave of absence occasioned by a severe illness.

Resigns Seat In Commons

Member For Royal, N.B., Hands In His Resignation

Ottawa, Ont.—George H. Jones, former Conservative Minister of Labor and former member of the New Brunswick legislature, has resigned his seat in the House of Commons for the constituency of Royal, N.B. The resignation, with an accompanying letter by Mr. Jones was read in the House by Mr. Speaker Black.

The action was taken by Mr. Jones on learning that a controversy of the House of Commons act had occurred by reason of Jones Bros., Apohaqui, N.B., having supplied medical goods for needy Indians on orders of the Indian medical director. The firm is not operated by Mr. Jones personally. It is an unincorporated firm, and had it been a corporate one, it is understood, the provision of the act would not apply. The amount of goods supplied, it is understood, was small.

Ulster Is Loyal

Northern Ireland To Remain True To The British Empire

Enniskillen, Northern Ireland.—Viscount Craigavon, Prime Minister of Northern Ireland, told a Unionist meeting that, whatever happened in the controversy between Great Britain and the Irish Free State, nothing would make his government "flinch" in upholding the flag which so long has flown over Ulster, the United Kingdom, and the rest of the Empire.

A resolution expressing unshakable loyalty to the King and a determination at all cost to remain within Great Britain and the empire was adopted by the meeting. (The Unionist party is the government party in Ulster.)

SEEK A LOWER RATE ON GRAIN TO MARITIMES

Ottawa, Ont.—Granting of a rate of 13.54 cents per 100 pounds on grain from the head of the lakes to Saint John, N.B. and Halifax, is urged in a memorial which is being sent to the Dominion Government. Conservative members and senators from the maritime provinces signed the document.

The memorial supports the appeal of the Halifax harbor commissioners and the transportation commission of the maritime boards of trade for a one cent differential for the maritime ports as compared with Quebec port. The appeal was heard before the cabinet shortly before parliament assembled for the session.

By a decision of the board of railway commissioners, the rate from the head of the Great Lakes to Quebec port was fixed at 13.54 cents per 100 pounds. Maritime boards asked that a one cent differential rate be put into effect under the Transcontinental Act.

The memorial supports the rate fixed by the board of railway commissioners. It further requests that the appeal for a 13.54 cent rate to maritime ports be referred to the railway commission for its early decision by the government is asked.

THE HUKES' MYSTERY EXPRESS

A unique stunt was put over by the British Railways during the Easter holidays by running "Mystery" specials for an unknown destination. So well were these mystery trains run that not even the train crew knew where they would stop until a moment before their departure. The above picture shows C. W. Holford Knight, K.C., and two other enthusiastic hikers trying to persuade the engineer to let them into the secret.

PROMINENT VISITOR

Combining business with pleasure, Gilbert Carmichael, official of Scotland Yard, famous British police organization, is shown as he arrived on these shores. He denied rumors that he is in the United States to investigate the Lindbergh kidnapping and said he will make a study of traffic systems in various American cities.

He denied rumors that he is in the United States to investigate the Lindbergh kidnapping and said he will make a study of traffic systems in various American cities.

Sunday Cinemas In England

Bill To Legalize Sunday Picture Shows Passes Second Reading

London, Eng.—A bill which would legalize Sunday picture shows passed second reading in the House of Commons by a vote of 235 to 217 after prolonged debate.

The decision was left to a free vote of the House, the voting cutting across all party lines. Sabbatarian elements have waged a campaign against the bill and many members received postcards making such prophesies as one that they Lord would strike them dead if the vote were in favor of the measure.

Cinemas have been open on Sunday evenings in London and several other cities for many years without legal sanction. They would definitely have to close on Sundays after next October 7, however, unless the bill passed.

Distribute Flower Seeds

Canadian Horticultural Society To Donate Seeds To Saskatchewan

Ottawa, Ont.—Flower seeds for distribution to residents in southern Saskatchewan, where the drought of last year took toll of crops and flowers, will be directed in the east under the direction of the Canadian Horticultural Society. Women's institutions and horticultural societies in eastern Canada will be asked to make donations of seeds and these will be distributed by the Saskatchewan relief commission, in co-operation with the horticultural council.

F. C. Nunick, chairman of the "Horticultural Council," announced distribution plans here.

Discount On Debts

Toronto, Ont.—To enable farmers to secure equipment much needed for the new season's operations and to aid in liquidation of their present indebtedness, a plan was announced by Massey-Harris Implement Company involving a 10 per cent. discount on all existing obligations to the company and on all new purchases of implements to the extent of payments prior to the end of next November.

OPTIMISTIC NOTE IS STRUCK IN MELBON SPEECH

London, England.—Hailing a new era, Andrew N. Melon, U.S. ambassador to Great Britain, told the Pilgrims Society there was nothing in world conditions as unprecedented as to justify a lack of optimism "in our capacity to deal with them."

This was the first public address as ambassador of the man who made millions in business and then administered the United States treasury under three presidents.

He spoke before a distinguished audience of 400 or more, including the Prince of Wales, Sir John Simon, foreign secretary, and Lord Derby, who presided.

The king sent a message to the Pilgrims, at the same time welcoming Mr. Melon to the city.

The Prince of Wales, speaking at the end of the banquet, saw proof of the friendship of the United States in seeing that the king was one of the greatest financiers of their country at this time of world economic stress. The Prince said he would not be able to visit America this year.

The ambassador reaffirmed his faith in "capitalism or whatever name may be applied to the system which has been evolved in adapting individual initiative to the machine age."

In discussing the way out of the present economic depression, he said, "I do not believe in any quick or spectacular remedies for the ills from which the world is suffering."

Mr. Melon revealed that during his lifetime he had passed through many crises which invariably followed war. Economic depression, he said, "are the price we pay for progress and they must be reckoned as a seemingly unavoidable stage in the sequence of events."

The economic life of nations seems to go in cycles, he said, starting forward in industrial expansion, then inflation and extravagance, which "brings it our own retribution."

In response to a message from the king, he said, "I cordially thank the Pilgrims of Great Britain and their guests assembled this evening for the loyal terms of their message, and I am glad to think that my son is with them on this auspicious occasion."

"It is indeed a pleasure to me to have this opportunity of associating myself with the welcome they are giving to Mr. Melon as ambassador from the United States of America."

Aid For Farmers

Advocates Homesteading System To Encourage Mixed Farming

Ottawa, Ont.—Earl Rowe (Cons., Dufferin-Simcoe), debating the Rhodes' budget, pointed to mixed farming as the economic salvation of Canada. It might be necessary to bonus certain products and he suggested a system for bacon and live beef, one cent for cheese, and three cents a dozen for eggs. This, he said, could be done without a heavy drain on the national exchequer and would revolutionize mixed farming. A plan of this type would encourage exports and stimulate the home market.

The farmers of Canada, proceeded Mr. Rowe, for years have witnessed the coal and iron and steel industries boom. He believed it was time to take similar action for mixed farming.

The biggest problem in Canada was the rehabilitation of the farmer, said J. L. Brown (Lib., Lagard). The question now was whether farmers were to be responsible for their own farms, deriving satisfaction out of their work and enjoying reading and other forms of education and entertainment, or whether they were to sink to the position of men engaged solely in grubbing out one kind of living from the soil.

The question now was whether farmers were to be responsible for their own farms, deriving satisfaction out of their work and enjoying reading and other forms of education and entertainment, or whether they were to sink to the position of men engaged solely in grubbing out one kind of living from the soil.

Disband Hitler Army

German Government To Put An End To Political Activities

Berlin.—The German Government ordered Adolf Hitler to disband his army of 400,000 National Socialist stock troops and put an end to his terrorizing activities for which he held him and his legions responsible.

The sudden blow at the strongest single political organization in the nation came in the form of an emergency decree signed by President Paul von Hindenburg. As soon as it was promulgated, police throughout the country proceeded to enforce it by bringing the various Nazi headquarters and seizing materials of war and propaganda.

As soon as it was promulgated, police throughout the country proceeded to enforce it by bringing the various Nazi headquarters and seizing materials of war and propaganda.

For Peaceful Solution

Sees Sign Of Co-operation Between Capital And Labor

Vancouver, B.C.—"I look for the destruction of the capitalist system by the workers of the world," declared Dr. S. D. Chown, former general superintendent of the Methodist Church in Canada, addressing the Vancouver Presbytery of the United Church here.

I rejoice in the signs on every hand of co-operation between owners and operatives, the selling of company stock to employees and other like movements," he added.

CHANGE URGED IN U. S. RADIO BROADCASTING

Ottawa, Ont.—The outstanding educational associations of the United States have passed resolutions urging a drastic change in the system of radio broadcasting in that country, the parliamentary committee on radio broadcasting was told by Dr. J. E. Morgan of Washington, D.C.

Dr. Morgan has been for ten years editor of the Journal of the National Education Association, and represented the national committee on education by radio. The opinion was expressed in his brief that certain radio channels should be assigned to the educational authorities and that they should be owned and operated at the public expense without recourse to commercial advertising.

The federal radio commission of five members, appointed by act of congress in 1927, had proved a "weak organization" so far and had not made full use of its powers, the witness said. Evidence that the United States congress was alive to the unsatisfactory condition of radio in this country was seen in the fact that the commission similar to that studying the Canadian situation was now sitting in the United States by unanimous order of the United States senate.

The radio, congress had decided, must be conducted in the "public interest, necessity and convenience," but whenever commercial interests made a bid for radio channels or hours held by educational organizations, the latter gave up their privileges unless they wished to enter into expensive litigation, Dr. Morgan said.

The powerful "nonprofit" organization in the United States was spending a million dollars a year in propaganda to keep control of the hands of private interests, the witness declared.

Business Advisers

Will Accompany United Kingdom Delegation To Imperial Conference

London, Eng.—The suggestion that business advisers should accompany the United Kingdom's delegation to the Imperial Economic Conference at Ottawa, has been welcomed by most Dominion governments. J. H. Thomas, secretary for Dominion Affairs, announced in the House of Commons recently.

Mr. Thomas added he had invited industrial associations to recommend selected advisers.

Raid On Fraternity House

Toronto, Ont.—A number of University of Toronto fraternity houses were raided by police and many tables of silverware seized. The silverware, it seems, had been taken from donations before and had been used as "souvenirs" of various exploits and celebrations by the students. The spoils, knives, forks and other tableware were returned to the establishments and no prosecutions were made.

Chinese Studies Important

Montreal, Que.—Recognition of the place that the Department of Chinese studies has come to play in the scholarship life of McGill University was indicated in a decision of the corporation to grant a degree of master of arts in this subject. This will be conferred on students who keep control of the hands of private interests, the witness declared.

IMPORTANT NOTICE Government of Alberta

INCOME TAX RETURNS

Income tax returns under the new Provincial Income Tax are now due and should be filed with the Superintendent of Income Tax, Qu'Appelle Block, Edmonton.

BEFORE MAY 31, 1932

Forms for returns may be procured from any Provincial Government Office, such as court houses, land titles offices, land offices, municipal secretaries, sheriffs, bailiffs, etc. or from any bank, or direct from the Supt. of Income Tax, Edmonton.

All persons residing, employed, or carrying on business in Alberta, are liable to a tax on income, subject to the exemptions provided for in the act.

Taxpayers are urged to go at once to the nearest office where forms may be procured, secure the necessary forms and make their returns immediately. Those who, after deducting the exemptions allowed in the Act, are not liable to a tax, need not file returns.

Full information re exemptions and method of filing returns, is contained on the forms themselves.

The general penalty for failure to file returns by the date specified is 5 per cent of the amount of tax payable, with a maximum of \$500. Specific penalties are provided for failure to file returns under certain classifications.

CLASSIFICATION OF FORMS

- Form 1 is for individuals other than farmers or ranchers.
- Form 1A is for Farmers and Ranchers only.
- Form 2 is for Corporations and Joint Stock Companies.
- Form 3 is for Trustees, Executors, Administrators, Agents and Assignees.
- Form 4 is for Employees, including educational, charitable and religious institutions, making a return of the names and amounts paid to directors, officials, agents or other employees during 1931.
- Form 5 is for companies and Joint Stock Companies, making a return of all dividends and bonuses paid to shareholders and members during 1931.

Further information will be furnished on application to

Supt. of Income Tax

It's Nature Grand when you can add just a small amount of Elephant Brand Fertilizer to your soil and then grow the finest vegetables, flowers, and lawn you have ever grown. Get it at Campbells.

Mr. and Mrs. R. H. Weale left to-day for Lusscar, Alberta, where they will holiday until Mr. Weale has made future plans. Meanwhile they will store their household effects in Vulcan—Vulcan Advocate.

Mr. Weale was the band master at Vulcan.

It looks to me like a waste of time for Charlie Chaplin to go to St. Moritz to learn skiing. In the first place he could have learned at Jasper Park or Banff or Revelstoke. In the second place anybody can be funny on skis. I am no Chaplin, but if he can be a bit funnier than I was the first and only time I ever put on skis, the spectators will all die in their seats.

It had occurred to me that nobody could outclass Charlie as a clown, but the day I tried skiing I saw 87 Negroes, some fresh from Alabama, who had never even seen snow before, much less ski, in a ski area and then I learned that there are at least 87 persons in the world, who, under certain conditions are funnier than he.

It was in the Crow's Nest Pass District in Southern Alberta, when and where Jack Johnson was gaining pugilistic fame. The Negroes were taken up a high mountain overlooking the C.P.R. right-of-way, skis were strapped on them and they were told the first to reach the C.P.R. tracks would receive prizes. But some skied east and some skied west, and some skied over the cuckoo's nest. Only one reached the goal and he wasn't on skis when he got there. He had been sitting for the last mile and the friction had taken all of his trousers seat and part of his personality.

The declaration that Canadian currency may be expected to return to par soon on the New York market, gives fresh evidence of the faith in the stability of Canada, held by American financiers. This evidence is heartening, even though there may be no immediate desire to see an end to the discount on the dollar, which helped to build the favorable trade balance that is now bringing currency back to parity.

It is safe to say that American faith in the soundness of Canada was never shaken, even during the time when funds were being discounted, most heavily. Before the process of depreciation began, every currency in the world excepting of Canada, was being bought and sold in New York on the basis of "true value" as fixed by the "profit point" index of the Federal Reserve system, which takes into account trade balances and foreign obligations.

"Meet the Family"

NO FOOLIN'—here's the tightest set of tires you've ever seen. Goodyears all—from Pathfinders, and All-Weather, to the famous Heavy Duty. We've got the size for every car on the road. And at prices that haven't been lower in history.

If you want to change over to real tire satisfaction, change over to a new set of our Goodyears—at the price you want to pay.

Put a new Goodyear Tube in every new car.
